Broiler Hatchery

United States Department of Agriculture

Washington, D.C.

Released April 8, 1992, by the Agricultural Statistics Board.

Broiler Eggs Set In 15 Selected States Up 2 Percent

Commercial hatcheries in the 15-State weekly program set 146 million eggs during the week ending April 4, 1992. This was 2 percent above the 143 million eggs set the corresponding week a year earlier. Average hatchability for chicks hatched during the week was 84 percent. Average hatchability is calculated by dividing chicks hatched during the week by eggs set three weeks earlier.

Broiler Chicks Placed Up 3 Percent

Broiler growers in the 15-State weekly program placed 117 million chicks for meat production during the week ending April 4, 1992. Placements were up 3 percent from the comparable week in 1991. Cumulative placements from November 3, 1991, through April 4, 1992, were 2.47 billion, 3 percent above the 2.40 billion placed during the same period a year earlier.
